Product Description

Four-Way Branch Connector for Solar Arrays

The BritiPower Y4 provides a reliable four-way parallel connection solution for photovoltaic systems, combining excellent electrical performance with superior weather resistance.

Specification	Value
Model	Y4
Rated Voltage	1000V DC
Maximum Current	30A
Contact Resistance	$\leq 5\text{m}\Omega$
Protection Rating	IP68
Protection Class	Class II
Operating Temperature	-40°C to $+85^{\circ}\text{C}$
Insulation Material	PP0
Fire Rating	V-0
Application Class	Class A

Key Features

- Four-way branch connector
- Rated for 1000V DC
- Maximum current 50A
- Low contact resistance
- IP68 waterproof construction
- PP0 insulated housing
- V-0 flame-retardant material

Applications

- Utility-scale solar farms
- Commercial PV arrays
- High-capacity combiner systems
- Large parallel string configurations
